	Backup			✓ ***
	Support		✓	✓

NOTES:

* There is no limit to raw processing data size. Analytical data set will be relatively small based on the data processing logic. E.g. raw data 1 million records and analytical data set is few hundred records.

** This limit will be based on your client hardware memory and cpu power.

*** Backups can be stored to S3, GCS, Azure Storage, FTP Server, SMB or NFS (storage is not provided)
